We believe that quality of life is enriched with delicious, nutritious, and locally grown fruits and vegetables brought from local farms to the table. We like to think that we partner with parents, schools, healthcare providers, and retail outlets to grow healthy families. We grow, pick, pack, and distribute locally grown fruits and vegetables. Our retail store offers nineteen varieties of apples including Zestar, William's Pride, Paula Red, Gala, Honeycrisp, Macintosh, Cortland, Red Delicious, Jonathan, Jonagold, Golden Delicious, Ambrosia, Snow Sweet, Pink Ladies, Empire, Fuji and more! Also available is yellow, white, and baby rice popcorn, hickory syrup, tomatoes, cucumbers, peppers, melons, squash, onions, green beans, onions, garlic, basil, mums, and caramel. We also have vintage apple knick knacks for sale, hard cider kits, caramel apple supplies as well as once-loved framed artwork, and a few select antiques. We actively support the Farm to School revolution, a nationwide initiative to bring delicious and nutritious locally grown food from the farm to the plate. We service area school districts that include more than 25,000 children, making weekly deliveries in our 8’ x 12’ refrigerated trailer and providing assistance with school gardens and educational programs such as apple tasting, melon tasting, apple sauce demonstrations, and more.

**Description:** abbychristopher is a Wisconsin based brand manufactured at ConnOils. Wisconsin Grown Hemp is used in our CBD products for Core Support Products. Our Hemp CBD products are Non-GMO, pesticide and solvent free. We begin by working with some of the best Wisconsin organic farmers, knowledgeable in growing Hemp. Why choose us? By now, you may have seen or heard the many products available on the market. All of us at Abby Christopher take great pride in offering our customers the best CBD products available. We utilize a reputable off-site 3rd party testing facility to make sure the cannabinoids are intact and tested for uniform strength and potency. Lab tests are essential to ensure you are getting a pure product, free from contaminants like heavy metals, pesticides, and microbes. Our CBD products are FULLY TRACEABLE, from field to bottle. Industrial hemp CBD products can be confusing to decipher. Hemp CBD oil commonly refers to oil products derived from hemp extracts, which come from the stems, leaves and buds of the plant, including cannabinoids also known as CBD oil. Hemp seed oil comes from the small seeds of the Cannabis sativa plant. The seeds do not contain the same levels of compounds as the plant itself, but they still have a rich profile of nutrients, essential polyunsaturated and fatty acids, and useful bio-active compounds. They have about a 3:1 ratio of omega-6 to omega-3, which is considered in the optimal range. Our Story: ConnOils, LLC is a Wisconsin-based company that was founded in 2007 by Stacy Peterson, Owner and CEO. ConnOils LLC is a global manufacturer and distributor of high quality natural, organic and nutritional Bulk Oils, and Oil Powders. Stacy formed Core Support Products to focus on Hemp derived ingredients. In late 2017, the State of Wisconsin approved and opened up licensure for Industrial Hemp. ConnOils LLC applied and received our first licenses, as the manufacturer of Core Support Products we have an experienced specialty oil producer, and processor behind the Abby Christopher product line.

At Cultivate Taste we do not use flavorings, candy, or sugar in our teas. We source direct, blend, and sell international award winning handcrafted and single origin loose leaf teas online, farmer’s markets, our tea salon, and wholesale. We strive to source organic and fair-trade teas whenever possible directly from the farms across China, Japan, Nepal, Sri Lanka, Thailand, Laos, Taiwan, India, etc? When we blend, we use high grade organic and fair-trade ingredients to enhance a tea not to mask it because we want you to enjoy and develop your palate, while feeling good that you are drinking something healthy too. We also use eco-friendly and biodegradable packaging because we believe in not harming the planet.

Description: We are a craft winery, distillery and brewery located about 10-15 minutes southeast of Green Bay. We have a nice spacious tasting room where you can sit at a table or at the nice long bar while you enjoy a bottle or glass of wine or a cocktail. The tasting room has a lot of neat vintage décor that you can walk around and look at. It also has two glass garage doors overlooking the vineyard and meadow. We have three grape varieties planted in our vineyards: Marquette, Petite Pearl and Brianna. Our patio out back is another place you can sit while enjoying some award-winning wines or cocktails. We have won several international medals for all of our wines and spirits. We have dry and semi-sweet reds and whites, semi-sweet fruit wines, and mead wines. We have spirits ranging from gin, vodka, sorghum whiskey, bourbon, brandy, rum and several flavored moonshines. We brew five different flavors of Kombucha Tea (a probiotic non-alcoholic tea). The other neat thing we offer is where people can come to our winery and craft their own wine. There are two visits involved: one to make the wine and one to bottle, cork, capsule, and custom label the wine. We are a family run winery whose main goal is to create a fun atmosphere to enjoy our wines, spirits, beers, and kombucha.

Fevolden Farm is a family owned farm in west central Wisconsin, just outside Black River Falls. The farm has been in the family over 150 years since Ole Olson Fevolden came to America from Norway in 1869. In 2002 the current generation formed a partnership to begin raising Huacaya alpacas. We shear the alpacas in the spring. This gives us their warm soft fiber to make into yarn and other products and helps prevent heat stress in the animals. We process the fiber in our studio in Cottage Grove, WI to produce yarn, hats, scarves and other products. Products are sold at our Black River Falls and Cottage Grove locations as well as at local craft/fiber events and now through our online store.

Website: https://food-chain.biz
Description: FoodChain is a Wisconsin-based company that combines an online marketplace with a reliable last-mile distribution system to connect local producers with restaurants, grocery stores, and institutional cafeterias and increase access to fresh, local food. Through FoodChain, producers create accounts and upload products to forge direct relationships with wholesale purchasers while buyers are provided with a platform to browse, compare, and purchase local food products. Our priority is to support local food systems by improving the accuracy, efficiency, and scale of commercial transactions between the producers and purchasers of fresh, local food. With a centralized drop-off location and distributive partners handling last-mile distribution, FoodChain aggregates and organizes products so producers can fulfill all their orders with a single delivery while purchasers receive a consolidated purchase order and delivery. This saves producers time typically spent on marketing and distributing local food sales while streamlining the ordering process for purchasers. Moreover, FoodChain simplifies the payment system, processing all payments online and consolidating invoices from multiple vendors into one digital invoice.

Description: We're a small non-profit that grows tomatoes and chilies in Milwaukee to make super local salsa. The sale of the salsa goes to support several Milwaukee based charities. This was our first year of operation, and we only sold salsa at community markets under the Cottage Food Laws. We want to formalize the business with the appropriate food licensing, and we were also interested in this trademark. We heavily emphasize local goods, since our product is grown and packaged in Milwaukee County, with all of our profits going to Milwaukee based charities. We believe the "Something Special from Wisconsin" branding would help clearly get our mission and message across via our labeling.

HaloVino makes wine taste great when glass is not an option! HaloVino’s shatterproof, stackable, stemless wine glasses are also dishwasher safe and recyclable. Inventor & Founder, Jessica Bell, used her experience as a former sommelier and wine school owner to design patented HaloVino to mimic the shape of a crystal wine glass, with a narrow rim & wide body, but then repositioned the ?stem? around the center to prevent warm hands from cupping the wine. This resulting ?Halo? design makes wine taste great, but also creates a sturdy, portable, stackable and packable wine tumbler perfect for outdoor tastings, backyards, camping & boating. In addition to its great taste, HaloVino prevents spills, rests perfectly in cupholders and even FLOATS in pools! Finally, as a former Beverage Manager, Jessica had the insight to add ounce lines to ensure the perfect pour every time ? A 6 oz pour hits just below the Halo, ensuring plenty of aeration and optimal taste & experience for your wines!

Description:
Health By Plants in Pine River, WI, became the first Certified Naturally Grown farm in Waushara County in June of 2016. We received our produce certification last year for vegetables, fresh herbs, berries, tree fruits and grapes. We grow on a half-acre in raised beds and in a geodesic greenhouse, where we implement
ecologically-friendly practices like composting and crop rotation to maintain our small and highly diverse farm. For personal, environmental, and sustainability reasons, we don’t use animal inputs of any kind in our operation. Certified Naturally Grown (CNG) is a certification program for farmers and beekeepers who use natural practices, without any synthetic chemicals or GMOs, to produce food for their local communities. Many farmers choose CNG because its peer-review inspections serve to foster direct relationships and learning opportunities among farmers, in addition to verifying the program standards are being upheld. Health By Plants is proud to join this nationwide movement of more than 800 small family farmers. We were inspired to live a plant-based lifestyle after watching the documentary, ?Forks Over Knives? in 2012. In 2016, we earned certificates in Plant-Based nutrition from eCornell/ T. Colin Campbell Center for Nutrition Studies. From there, we started raising our own fruits and vegetables and soon after decided to bring our produce to market. At the market, you can expect to find staples like tomatoes, peppers, potatoes, beans, onions and cabbage, in addition to other favorites. In future seasons, we’re looking forward to harvesting asparagus and garlic for market. From seed to table, we’re involved in producing healthy, sustainable food every step of the way.

Description: Honey Down Farm is a small farm located in Richfield. We are dedicated to raising dairy goats, poultry, and honey bees. We are blessed with rich butterfat milk, vitamin rich eggs from pasture raised chickens, and golden honey. This abundance led us to create natural bath products featuring ingredients from our farm. Our herd blesses us with quality goat milk that we use in our small batch cold process soap. The nutrient dense bars provide a gentle cleanser and natural exfoliate. Soaps are packaged in composable biofilm. Our happy honey bees pollinate the garden and share their golden raw honey that we use in lotions and salves. Raw honey is the perfect beauty remedy.

Hunger Task Force is an anti-hunger public policy non-profit based in Milwaukee, WI. Hunger Task Force created The Farm in 2012 for the express purpose of growing healthy, fresh food to feed hungry people. Low-income seniors, families and children throughout Milwaukee County can rely on The Farm to deliver access to hundreds of thousands of pounds of Farm-grown fruits and vegetables each growing season. The Farm also provides a robust nutrition education program for low-income youth, manages natural areas restoration efforts throughout the property, maintains a functional fish hatchery for Milwaukee County, and manages multiple honeybee hives to provide pollination, honey and visitor education. A valuable community asset, The Farm is designated as protected Milwaukee County park land ‘to remain free from development’ through the terms of a 30-year lease agreement with Milwaukee County.

Description:
The story begins in the small Wisconsin community of Watertown. It was here that Tony Kraemer, a lifelong farmer, decided to build a small dairy business on his property. Could Tony, the patriarch of the Kraemer family enterprise, ever have envisioned that three generations later, his family would still be carrying on the tradition for fine dairy products and service he began in the 1920s. Tony’s farm and dairy operation survived the Depression, and he was able to build his business through the next two decades. In 1949, Tony’s son, Jim, joined his father, concentrating on all facets of the operation. Jim spent years learning his father’s business, doing everything from working the farm and land, to delivering milk and building a loyal customer base. But Jim’s interests lay in another area of the operation, and in the early 1970s, he and his wife, Joanne, were able to realize their dream. It was here, on the family homestead that Kraemer Dairy Store was born. Over the next three decades, Jim and Joanne worked hard to build the business, securing the state to find the finest cheeses, and in the process, groomed the next generation of Kraemers. Beyond their keen eye for the best cheese and sausage products, the Kraemer family makes its own cheese spreads (17 varieties in all) from recipes created by Jim himself. These fine spreads are made in small, 40-pound batches to ensure quality, flavor and freshness. Still located in Watertown, the Kraemer family sells and ships more than 500,000 pounds of premium cheese and cheese products each year all over the country and abroad. Today, thanks to Jim and his wife, Joanne, and sons Mike, Richard, and son in law Dan, Kraemer Wisconsin Cheese is carrying on the Kraemer legacy as a shining example of hard work, family values, attention to detail and quality products and service.

We are a family living our dream. We always wanted some land to grow our own food without pesticides and purchase organic heirloom seeds to plant. We as a family savor our time outdoors, connecting with our land and animals as well as each other. We are so thankful you’ve chosen to connect with us. It’s an honor to share our harvest with this outstanding community.

What started as a hobby has turned into a lifestyle . . . a lifestyle that we want to share with you. At Maple Hill Farm, we are home to a flock of dairy sheep along with a meat breed of sheep, grassfed beef cows, chickens, and pasture raised pigs. Maple Hill Farm is focused on providing quality product from animals that have lived a quality life. We believe that every person should know where their food comes from - see how it is raised, learn why it is raised that way, meet the people who raise your food, and understand the value of small family farms.

As the fourth generation we own and operate the Marr family's homestead farm located south of Mineral Point. Established in 1874, our land is nestled in the breathtaking Driftless Region of Southern Wisconsin. We raise Black Angus Beef for your dining pleasure. Our cattle are pasture and forage fed, with access to grains during finishing. They are always free to roam about at their own will. Since 1999, we've sold our Black Angus Beef products by the individual cut, quarters, halves and wholes. We partner with family friends to also offer a full line of Pork products to compliment our beef. We have a robust, 3 Meat CSA with pickup sites across Southern Wisconsin from Mineral Point to Milwaukee.

Description: Our family farm consists of gentle rolling hills, with pastures extending across the land?perfect for grazing our herd of grassfed Murray Gray beef cattle. In addition to our beef cattle, we also raise pigs and grow vegetables. Our beef cattle are A Greener World (AGW) Certified Grassfed and Animal Welfare Approved (AWA). Our cows are rotationally managed, grazing one section of pasture before being moved to fresh fields. This type of management allows the plants to recover before cows return to graze again and maintains soil health and nutrients. Rotational grazing both benefits our cows and the land. Carefully managing the pasture helps us ensure the cattle are eating quality forage which leads to high quality meat. Pasturing the cattle also allows them to enjoy a low stress lifestyle, and the Murray Gray and Angus cattle grow very well on pastures.

Description: OvenWorks Pizza was started in the late 1980’s by James “Jimmy Boy” Edming of Glen Flora, WI. This modest little pizza company grew to be a force within the frozen pizza market serving Wisconsin, Michigan, Minnesota and other remote locations. The OvenWorks Pizza Corporation was purchased in February 2006, by another Wisconsin family ensuring the commitment to quality, craftsmanship and the use of premium ingredients would remain the cornerstone of this product. The weight in our pizza is not in the crust like so many others, but our density comes from the weighty Wisconsin cheese, quality meats and premium sauces. A message from the owners of OvenWorks Pizza: It was our personal experience with these great pizza products that sparked our interest and eventually led us down the path of becoming the owners. From our very first taste we knew this pizza offered something different, something unique, something no other pizza offered in the frozen pizza category. We hope you too enjoy "Something Special From Wisconsin!" Alan & Wendy

Description: Over 50 students and 11 local businesses helped start the Platteville Sunflower Project in 2013. Together, we grew sunflowers, harvested seeds, and pressed oil right here in Platteville, WI. Sunflower oil is a healthy alternative to olive oil, and by being locally grown it has less of a carbon footprint. As a bonus, the seed husk byproduct makes a great cattle feed. Our cold pressed oil, with a slightly nutty flavor, is grown with certified organic sunflower seeds here in Wisconsin's Driftless Region and bottled on campus by University of Wisconsin-Platteville students. All profits from the sales of our oil help to fund sustainability and renewable energy related education and community engagement throughout southwestern Wisconsin. Description: Pork King Good manufactures the finest and best-tasting pork rinds and cracklins in the world by using family recipes and manufacturing processes that have been handed down over three generations. The original business, The Porkie Company of Wisconsin, was started in 1948 by Roman Rydeski in Milwaukee, Wisconsin. In 1958, Porkie Company of Wisconsin moved to Cudahy where it found its permanent home. After Roman retired, the company was handed over to his son, Rich Rydeski, and nephew, Tom Rydeski who continued running the family company until 2022 when Rich retired at the age of 81. The company was sold to Lauren Koston of Pork King Good, the only current woman pork rind manufacturer in the United States and the second ever since 1957. Lauren Koston started the Pork King Good brand in 2018, originally as a customer of the Porkie Co. Her completely innovative lineup of flavored pork rinds along with her best-selling pork rind crumbs (a zero carb breadcrumb substitute) have taken the industry by storm and shaken up the pork rind world as we know it.

Description: OUR FARM We are the third generation of the Riemer family to farm this land in South Central Wisconsin. OUR ANIMALS All of our animals are raised without antibiotics, steroids, hormones or animal byproducts. Our animals are rotationally grazed on pasture in season. Our animals are raised humanely and we ensure that they always have access to the outdoors, even in the off season. ---- We believe happy, healthy animals result in healthy, delicious meat. Our beef and lamb are 100% grass fed and finished. Our pork and poultry receive supplemental feed. Our non-GMO ration feed comes from our local, hometown mill and all of our meat is processed at local, family-owned butcher shops. OUR LAND We pride ourselves on using regenerative practices so that this land can be viable for generations to come. We want to do better than just sustain the land, we want to build soil and improve land and water conditions through careful movement of animals. We rotationally graze our animals and disrupt the soil as little as possible. Diverse perennial pastures help us to build and retain the soil, maintain soil life and prevent erosion. ---- We believe that healthy, nutrient dense food is the result of caring for not only the animals but for the land that sustains them, starting with the soil. OUR CUSTOMERS We believe in transparency and would love to show you around. Customers are always welcome to visit our farm! Contact us for more information on open house events and tour options. Our on farm store is open: Thurs: 8-9, Friday: 8-5, Saturday: 3-5, Sunday: 12-5. We make regular deliveries to the Madison and Milwaukee areas and can be found at the Woodstock Farmers market both in the summer and winter. See our website for more details.

Description: Our company has changed to Roadside Cucina and Cannery. We now process Augusta's Antipasto in our licensed kitchen. We co-pack for other businesses as well. We make our Italian family recipes using local in season ingredients and sell at local farmers markets and event. We also cater small events. Our family version of antipasto began with the second generation "Giordana’s." They came from Italy to the Upper Peninsula of Michigan in 1906 and brought with them their Authentic Italian recipes. Our family gatherings traditionally began with antipasto, red wine, garlic bread, and animated conversations. My grandmother and mother were passionate about cooking for their families and it showed by preparation and presentation of delicious traditional Italian dinners. Watching these women cook influenced me greatly. I not only have the love for cooking, but the desire to teach and share with others. We have put together our families' recipe of antipasto to share with all of you. Antipasto literally means "before the meal." The main purpose for antipasto was to extend the meal. It started the meal followed by salad, soup, pasta with meat, and a light dessert. The abundance of courses was only part of the experience. The other part was the animated family conversation. The combination of antipasto and conversation maintained our family relationships. Augusta's Antipasto is named after my grandmother, a picture of my mother decorates the jar, and I’ve named my business with the thoughts of family. This recipe and the love of cooking continue today with my daughters' participation in continuing this tradition. We hope you enjoy our antipasto as much as we do. Sincerely, Diana

Brothers Tim, Fritz, and Bill Schierl founded Northern Oasis Spirits in 2017 in Stevens Point, WI, in hopes of ‘distilling’ fun, fellowship and simplicity back into a hectic world. Schierl Brothers Northern Oasis Spirits has strong business roots dating back to 1956, when their father Butch started the family business. Since his passing in 1989, Butch’s sons have been growing the business together for 30 years, with an ever-present passion for liquid libation. Through a brand and production agreement with Distillery Partners, LLC, in Plover, WI, Schierl Brothers Northern Oasis Spirits offers Riverbank Spiced Rum, Lone Duck Cinnamon Whiskey, Shoredack Whiskey, and award-winning Lakeview Vodka. The spirits use no artificial sweeteners, and no neutral grain spirits. These all-natural, 100% handcrafted ‘grain to glass’ spirits pay homage to growing up in the Wisconsin north woods, surrounded by loving family and good friends. Available at your local retail partners and watering hole, Northern Oasis Spirits are sure to make any occasion more memorable!

Description:
The Big Band Reunion was formed in 1991 by two Music Professors from Lawrence University, co-leaders Bob Levy (trumpet) and Nick Keelan (trombone) both of whom performed extensively with big bands. They sought to provide a weekly outlet for numerous musicians throughout the Fox Valley region of Wisconsin and to keep the "big band sound" alive and well. The Band has continued to develop and thrive over the years, this being our 25th Anniversary. We are a not for profit musical association of area Musicians and Musical Educators.

The Maple Dude

Contact Name: Tim Sternitzky
Welcome to The Maple Dude. Each year from about mid March to mid April we produce some of the best pure maple syrup available. Maple syrup, sugar, cream, candy, cotton candy, cookies, ice cream, soda, coffee, almonds and more! We’ve been at this many years now but our maple tradition goes back much further than that. I learned the skill of “sugar making” from my father and grandfather. When you consider the fact that my family was the first to settle the central Wisconsin area we’ve actually been producing maple syrup since they arrived here from Germany in 1856. We take pride in what we produce. Hand crafted quality best describes what we do. While many producers use such practices as oil for fuel we use more traditional methods. We boil all of our maple over a wood fired evaporator. Making maple syrup is something we love to do. We hope you enjoy the products we produce!

**Description:**  
White Winter Winery was founded in 1996 on the principles of sustainability, and utilization, to use what our region produces to make high quality products and to build coalitions and partnerships with growers, producers, and other businesses. We use regionally sourced fruits and honey. In this way we can sustain not only ourselves, but our neighbors as well. Our belief has always been that we should use what is grown in our own back yard, not ship it in from across the country or across the world. Too many times we, as consumers, look only for the cheapest price without considering the hidden costs of buying out of our area. Costs such as the hydrocarbon emissions of shipping cheap, mass grown, corporate farm raised produce across the country. Costs of importing cheap honey harvested in foreign countries at a fraction of the actual production cost and dumped into the U.S. market. Costs of sub-standard wages and living conditions for people who have little choice if they want any work at all, just so we can have the cheapest price.
