DogsInVests has been training and placing service dogs with children and young adults with autism since our inception in 2017. We are currently training five service dogs that will be placed with individuals over the next 24 months. We are adding another new puppy to our training program in early 2024. DogsInVests placed our first service dog with his recipient in July 2020, a second dog was placed in August 2021 and third dog was placed in August 2022. We placed a fourth dog in May 2023. DogsInVests specializes in the training and placement of service dogs for children and young adults with autism in Southeastern Wisconsin. The average cost to train, feed, and maintain the health of our service dogs from puppy to placement is approximately \$25,000.00 per dog. DogsInVests also facilitates awareness-building presentations that educate children and families about autism, the benefits of service dogs for individuals with autism, and how to behave around a working service dog. DogsInVests has hosted several of these presentations in local schools, churches and community organizations reaching hundreds of individuals since our founding. To ensure that we are reaching those who may be in need of a service dog at no cost, we engage and develop relationships with autism organizations, therapists and advocate agencies who then provide referrals to our organization.

We have three grape varieties planted in our vineyards: Marquette, Petite Pearl and Brianna. Our patio out back is another place you can sit while enjoying some award-winning wines or cocktails. We have won several international medals for all of our wines and spirits. We have dry and semi-sweet reds and whites, semi-sweet fruit wines, and mead wines. We have spirits ranging from gin, vodka, sorghum

whiskey, bourbon, brandy, rum and several flavored moonshines. We brew five different flavors of Kombucha Tea (a probiotic non-alcoholic tea). The other neat thing we offer is where people can come to our winery and craft their own wine. There are two visits involved: one to make the wine and one to bottle, cork, capsule, and custom label the wine. We are a family run winery whose main goal is to create a fun atmosphere to enjoy our wines, spirits, beers, and kombucha.

To help solve this problem, I began taking beekeeping classes and engaged in mentorships with some gracious local beekeepers. It didn't take long before this intended "hobby" became a full-blown passion. If you value pollinators as much as my wife and I do, you'll love our cause AND our honey! We teamed up with Sweet P?s Pantry out of Oconomowoc, WI and did a few test runs to make sure we captured the flavor just like it?s made in Ghana. Sweet P's did a great job, and the product has been a hit since we unleashed it in the Wisconsin market. What does Ghana Style mean? It is simply made with a lot of chopped peanuts, cane sugar, water, and salt. No corn syrup, butter, (yes this is Vegan), preservatives, baking soda, etc. it is also gluten free. The best thing about it is it doesn?t stick to your teeth. We also use several local companies to help us in our quest to get the product out.

American ginseng roots by Hsu's Ginseng are available in several families and sizes for a multitude of uses in foods, soups, teas, and gift-giving. American ginseng is a yin (cooling) tonic, for those who are yang (hot) in nature. It is recommended for all ages and sexes, for all seasons, and for daily, long-term use. As an adaptogen, a natural substance known to normalize body functions, American ginseng helps the body to utilize other substances more efficiently and supports elimination of those toxic substances that affect the body's well-being. Hsu's Ginseng Enterprises, Inc. is the world's premier American Ginseng grower, importer and exporter of the storied crop since 1974. Hsu's defines the international American ginseng trade through numerous export awards at the state and national level. Located in Marathon County, WI, we operate on over 1,000 acres of virgin ginseng land to produce highly prized Wisconsin-grown American ginseng. Our investment into growing the highest quality American Ginseng for over 40 years allows us to create unique ways to enjoy ginseng in your daily life. The North 45th parallel represents distinguished climates and environments as it circles the globe. Almost 90% of the United States American ginseng crop is grown within a 25 mile radius of where the N 45th parallel crosses Wausau, Wisconsin. A four-season weather pattern takes place along this geographic designation, offering several unique agricultural products each with their own special characteristics created by a distinctive environment usually referred to as "terroir". In temperatures below 32 degrees Fahrenheit (0 degrees Celsius) with ample amounts of snow in the winter and the right amounts of heat and rainfall through the growing season, American ginseng flourishes. We are proud to operate near the North 45th parallel designation and continually provide the highest quality Wisconsin-grown American Ginseng year after year for our fans and customers both here and abroad.

It's Poppin'! was an idea born out of our family's love of popcorn. We are a farming family and popcorn was often our snack of choice on busy days in the fields. Sometimes it was even our dinner after a long day working outside. We knew that each evening, we would all gather around the table to share a huge bowl of popcorn as a family. So over the years, a small kernel of

an idea about making and selling popcorn grew into the opening of a retail location with popcorn as our main feature, making over 75 different flavors! Over the last 10 years, our popcorn store has evolved into the offering of uniquely seasoned popcorn and pretzels, our homemade Fresh Fudge, super premium Ice Cream, real Wisconsin cheeses and fresh cheese curds, and then the addition of our gift shop with unique gift items that you can give to just about any special person in your life. Creating unique wood products with a focus on live edge wood products and natural wood grains. I have been doing woodworking for over 30 years for myself, family, and friends, and now have begun offering these products to others in 2022. I love the uniqueness of wood and the various grains of natural wood products. Living in Wisconsin, we have many beautiful wood species. Live edge wood products is a specialty making each individual design unique. We are located in Cedarburg, WI. All wood is sourced from a local lumber mill that harvests the wood and kiln dries the wood. The wood is kept in its natural state if possible to show the natural beauty of the wood.

We are a family owned business at The Dandelion Farm who hold a deep passion for the work that we do. We source as many of our organic products directly from our own animals. We take pride in locally sourcing the highest quality ingredients from other makers and creators to ensure every single product we add to our shelves meets our high expectations and provides our customers a true farm to store experience. Our Philosophy The Dandelion Farm?s philosophy is simple. We strive to make a positive impact on people's lives through what we choose to put on our skin. We make everything from scratch and in house to ensure the highest

quality for our customers who are our family. We understand the power of all natural products. As a retired LPN, it is my goal to provide holistic therapy, natural products, and goods that reduce your stress and leave customers happier than when they came in the store. Our History My family and I built The Dandelion Farm from the ground up in 2014. I was born and raised on a farm so handling organic ingredients is second nature to me. While I was pregnant with my second daughter, Mollie, I met a woman who changed my life and altered my path forever. Her name was Polly and she taught me, among other things, how to make my own soap- and that was that. What started as selling soap to my co-workers and at the local farmer?s market turned into my family taking a chance on a dream. We purchased an old barber shop and set up our own store. Now we have a 4,000 square foot facility that not only makes all products in-house, but offers other holistic services like Reiki, Massage, Astrology, and so much more. The crew at The Dandelion Farm is nothing short of one big family. From the Massage Therapists and the Reiki Masters, to my husband and children, and every member of The Dandelion Farm staff, we all love what we do and can not wait to share our passion with you. What You Can Expect When you visit The Dandelion Farm you can expect to walk into a refreshingly positive environment that sweeps you away to happier thoughts with the delightful smells that permeate the door. We want to deliver you a farm to table experience that will set us apart in your mind so that you insist on coming back and being a member of the Dandelion family. You know you have been accepted into the tribe when our Spa cat, Dandelion, gives you his attention. Our dedicated staff is always insightful, knowledgeable, and friendly when walking you through our many offerings. We want to help you find the products and services that best meet your needs and understand that one size healing and growth does not fit all. This is your invitation to treat yourself to some self care and oh-so precious ?me time.? Most clients love to visit The Dandelion Farm with a friend or few! We are the perfect place to unwind, connect, and nurture yourself on your journey of life. You can always call us at 920-361-0507 or stop by The Dandelion Farm at 120 W. Huron St. in Berlin, Wisconsin. Please give a call or stop by for a visit to learn more and connect when a member of our team. Trust me, we have something for everyone at our shop.

I learned the skill of "sugar making" from my father and grandfather. When you consider the fact that my family was the first to settle the central Wisconsin area we've actually been producing maple syrup since they arrived here from Germany in 1856. We take pride in what we produce. Hand crafted quality best describes what we do. While many

producers use such practices as oil for fuel we use more traditional methods. We boil all of our maple over a wood fired evaporator. Making maple syrup is something we love to do. We hope you enjoy the products we produce!

When investigating the local handmade markets I noticed a significant amount of essential oil scented and rustic flare type products. As a consumer with sensitive skin to fragrance, I wondered, why can't there be a better alternative that can be

trusted but also look pretty, smell pretty, And be good for you? I researched and invest in my small business to be able to participate in the Handcrafted Soap and Cosmetic Guild to network and be able to connect with other makers and suppliers. My goal is to make products that look and smell pretty that the end user can enjoy. I originally was inspired by the concept of Hygge, cozy and comfortable type products. This is why I use a variety of butters and oils in my skin products to enhance the experience.

White Winter Mead, Cider, Spirits was founded in 1996 on the principles of sustainability, and utilization, to use what our region produces to make high quality products and to build coalitions and partnerships with growers, producers, and other businesses. We use regionally sourced fruits and honey. In this way we can sustain not only ourselves, but our neighbors as well. Our belief has always been that we should use what is grown in our own back yard, not ship it in from across the country or across the world. Too many times we, as consumers, look only for the cheapest price without considering the hidden costs of buying out of our area. Costs such as the hydrocarbon emissions of shipping cheap, mass grown, corporate farm raised produce across the country. Costs of importing cheap honey harvested in foreign countries at a fraction of the actual production cost and dumped into the U.S. market. Costs of sub-standard wages and living conditions for people who have little choice if they want any work at all, just so we can have the cheapest price.
